

INDEX TO VOLUME 15

A

- Abnormality, congenital, bicuspid aortic valve: coarctation of aorta at unusual site, associated with, 739
 coarctation of aorta at unusual site, associated with congenitally bicuspid aortic valve, 739
 dextrocardia with situs inversus, complicated by hypertensive and coronary heart disease, 493
 coronary thrombosis in case of, 240
 patent ductus arteriosus, attempt to obliterate, in patient with subacute bacterial endocarditis, 621
 transposition of great arterial trunks, 482
- Abramson, David I., Fenichel, N. M., and Shookhoff, C., 471
- Acetylcholine, injection of, into carotid artery of man, 632*
- Acetylene method, cardiac output in heart disease determined by direct Fick method, including determinations by, 506*
- Acrocyanosis, 640*
- Action potential, course of, on chest wall, 635*
- Adrenal (*see* Suprarenal)
- Agostoni, G., and Pezzi, C., 758*
- Albers, D., 765*
- and Thaddea, S., 760*
- Alcohol addict, role of nutritional deficiencies in production of cardiovascular disturbance in, 569
- Allen, E. V., and McKechnie, R. E., 639*
- Alsever, John B., and Levine, S. A., 201
- Alternans, electrical, occurring in case with pericardial effusion, 100
- Amblyopia, tobacco, treatment of, with vasodilators, 256*
- Anastomoses, arteriovenous, occurrence of, in tongue of dog, 254*
- Anesthesia, influence of, by morphine-heroin, and by chloralose upon arterial pressure and upon vasomotor reflexes of proprioceptive regulation of arterial pressure, 248*
- Aneurysm, arteriovenous, 642 (book review)
 dissecting, of aorta, ante-mortem diagnosis and course, 358
- Angina pectoris, adrenals and, pathogenesis and roentgentherapy, 255*
 as complication of myxedema, and myocardial infarction, 652
 significance of reflex excitability of vagus in, 372*
- Anginal crises, repeated, with paroxysmal hypertension and vasomotor disturbance, record of medical treatment, two surgical interventions and efficiency of synthetic sympatholytic drug, 511*
- Anomaly (*see* Abnormality)
- Anthony, A. J., and Loos, W., 764*
- Aorta, aneurysm, dissecting, of, ante-mortem diagnosis and course, 358
 coarctation of, spontaneous rupture of, with hemopericardium, 365
 course of, and measurements in child hood, 375*
 isolated, human, elastic properties of, studies on, 125*
 spontaneous rupture of, with hemopericardium, caused by coarctation, 365
 stenosis of, in region between arch and descending portion, 758*
- Aortitis, syphilitic, occupation and, 376*
- Apnea, following standstill of heart, or convulsions, 129
- Armstrong, Harry G., 513*
- Arnold, H., and Enger, R., 633*
- Arteriography, thorotrast, maintenance of functional integrity of occluded large arteries, as demonstrated by, 640*
 use of substitute for colloidal thorium dioxide in, 379*
- Arteriosclerosis, cerebral, 253*
 cholesterol-induced, in rabbits, with variations due to altered status of thyroid, 631*
 management of, of lower extremities, 377*
 pulmonary, 637*
- Artery, carotid, injection of acetylcholine into, 632*
 cerebral, embolism of, as complication of coronary thrombosis, 253*
 coronary, anastomoses, occlusion and, injection plus dissection study of, 528
 blood flow of, in pathologic hearts, 764*

An asterisk () after a page number indicates that the reference is an abstract and not an original article.

- Artery, coronary—Cont'd
 calcification of, roentgen diagnosis of, 513*
 disease of, dextrocardia with situs inversus complicated by hypertensive heart disease and, 493
 hemorrhage into wall of, occlusion by, 459
 occlusion and anastomoses of, injection plus dissection study of, 528
 by hemorrhage into walls, 459
 temporary, of, experimental studies on effect of, in producing persistent electrocardiographic changes, 250*
 reaction of, to histamin, 506*
 thrombosis of, cerebral embolism as complication of, 253*
 in case of congenital dextrocardia with situs inversus, 240
 pericardial involvement in, 232
 without pain, 252*
 vasoconstrictor action of foreign species blood in, 452
 great arterial trunks, congenital transposition of, 482
 inflammation, primary, of, 512*
 large occluded, maintenance of functional integrity of, as demonstrated by thorotrast arteriography, 640*
 occlusion, acute, of, problems in diagnosis, prognosis and treatment of, 395
 pulmonary, embolism of, 378*
 relation of venous thrombosis in lower limbs to, 378*
 statistical study of its incidence in twelve London hospitals, 377*
 pressure in, bloodless method of measuring, 250*
 role of, in peripheral resistance of hypertension and related states, 638*
 strips of, electrical changes recorded from, 632*
 thrombosis of, possibility of emboli from, short-circuiting peripheral and pulmonary capillary circulation, 335
- Arthritis, rheumatoid, comparison of cells of subcutaneous nodules from patients with rheumatic fever, syphilis and, 637*
- Aschoff, L., 764*
- Ash, Rachel, 375*
- Atmospheric pressure, diminished environmental, influence of restorative drugs upon orthostatic circulatory collapse at, 371*
- Auricle, electrical activity in, study of, 471
- Auricle—Cont'd
 fibrillation of, treatment of, clinical studies of gitalin and of digitalis in, 643
 paroxysmal, of, in course of right heart failure due to chronic pulmonary tuberculosis, 114
 flutter of, in kymogram, 380*
 two-to-one and three-to-one left bundle branch block in presence of, 501
- Autonomic nervous system, strategic points in lumbar and sacral outflows of: sympathetic denervation of lower limbs, 380*
- B
- β -p - oxyphenyl - isopropyl - methylamine, action of, 248*
 new circulatory drug with peripheral action, 247*
- Bacal, H. L., and Struthers, R. R., 637*
- Bacq, Z. M., 630*
- Bacteremia, *Brucella melitensis*, associated with vegetative endocarditis, 109
- Barach, Alvan L., Levy, R. L., and Bruenn, H. G., 187
- Barber, Hugh, 636*
- Bard, Philip, 383
- Barker, M. H., 380*
- Barker, W. Halsey, and Howard, J. E., 510*
- Barnes, A. R., 378*
- Bartschi, W., 506*
- Baths, water and mustard, comparative effects of, at varying temperatures, on rate of peripheral blood flow, 425
- Battro, A., and Lanari, A., 632*
- Bayless, F., and Heymans, C., 248*
- Beck, William C., and de Takáts, G., 158
- Bee, poison of, transcerebral iontophoresis of, in arterial hypertension, 638*
- Beeman, Joseph A. P., Menne, F. R., and Lobby, D. H., 631*
- Bellet, Samuel, and McMillan, T. M., 760*
- Benatt, A., and Mahaim, I., 126*
- Benjamin, Julien E., and Landt, H., 83
- Benson, Ikel C., and Hallock, P., 125*

- Binger, M. W., and Craig, W. McK., 762*
- Bird, Clarence E., 379*
- Bishop, Louis Faugeres, Jr., 354
- Block, C., 252*

Blood, arterial and venous: observations on oxygen content and capacity, carbon dioxide content and pH of, effect of temperature on volume flow of blood through sympathectomized paw of dog, 757*

flow in coronary arteries in pathologic hearts, 764*

in veins near heart, respiratory pulse in man and, 379*

intermittent, in capillaries of human skin, 512*

peripheral, comparative effects of water baths and mustard baths at varying temperatures on rate of, in man, 425

renal, dependence of, upon ureteral pressure, 630*

residual, of kidney after ligation of main artery, 247*

through kidney during stimulation of carotid sinus, 630*

venous, action of ventricular systole in, 371*

volume of, arterial and venous, effect of temperature on, through sympathectomized paw of dog, with observations on oxygen content and capacity, carbon dioxide content and pH, 757*

foreign species, coronary vasoconstrictor action of, 452

pressure, action of folliculin on, 253*

arterial, and size of cardiac infarct, 448

effect of hypophysectomy on, of dogs with experimental hypertension, 505*

influence of anesthesia by morphine-pernoctone and by chloralosane upon, and upon vasomotor regulation of proprioceptive regulation of arterial pressure, 248*

regulation, proprioceptive, of vasomotor reflexes of influence of anesthesia by morphine-pernoctone and by chloralosane upon, 248*

as index of emotional stability and pulse rate, 513*

measuring, bloodless method of, in pulmonary artery, 250*

regulation of, significance of ligamentum arteriosum of ductus Botalli and its junction with pulmonary artery, 759*

venous, comparison of arm and femoral, with special reference to changes during pregnancy, 762*

response of, to exercise, 758*

vessels, contraction, spontaneous rhythmic, in, 631*

Blood vessels—Cont'd

distensibility of, of human extremities, 764*

nourishment of heart and, under normal and pathologic states, capillaries and, 249,* 250*

peripheral, function of vasography as test of, 255*

pulmonary, pulsation in, and manifestations in kymogram, 641*

superior mediastinal, comparison of percussion and radiography in locating heart and, 515

tumors, diagnosis of, infra-red photography in, 372*

viscosity of, in cardiac insufficiency, 765*

volume, clinical studies of, 758*

- Christie, Amos, Sampson, J. J., and Geiger, J. C., 661
- Chromaffin cell tumors, benign (phaeochromocytomata), paroxysmal hypertension and other clinical manifestations associated with, 510*
- Circulation, central regulation of, respiration and, 124*
changes in organs due to substances native to body, histamin, 248*
collapse of, effect of epinephrin in, induced by sodium nitrite, 249*
orthostatic, influence of restorative drugs upon, at diminished environmental pressure, 371*
effect of intermittent occlusion on, 639*
pathology of, 382 (book review)
peripheral, disease of, evaluation of results in treatment of, 265
regulation of, in skin, influenced by local heat, 630*
time, determination of, with magnesium sulphate, 641*
- Circulatory disease, and respiratory, mortality of, 379*
system in senility, 764*
peripheral and pulmonary, capillary, possibility of emboli from arterial thrombosis short-circuiting, 335
pulmonary, can congenital heart disease cause morphological changes in, 375*

- Electrocardiogram, alteration of, in course of diphtheria, 507*
alternans of ventricular complex of, 759*
changes in, and peripheral nerve palsies in toxic diphtheria, 635*
as criteria of individual constitution derived from physiologic panel, 251*
following inhalation of tobacco smoke, 89
in experimental and clinical adrenal insufficiency, 760*
in insulin treatment of schizophrenia with notes on effect of cardiazol on electrocardiogram in same condition, 760*
in pericardial tamponade, 635*
in 22 cases of carbon monoxide (illuminating gas) poisoning, 434
occurring at death, 127*
with alteration of posture from recumbent to standing positions, 146
persistent, in experimental studies on the effect of temporary occlusion of coronary arteries in producing, 250*
- Electrocardiogram—Cont'd
clinical observations with chest leads, 373*
value of dorsoventral lead, 251*
course of action potential on chest wall, 635*
electrical alternans occurring in a case with pericardial effusion, 100
experimental investigation of, with esophageal leads, 373*
human, form of, effect of digitalis on, with special reference to changes occurring in chest lead, 604
in agonal states of man, 509*
influence of size of cardiac infarct upon, 77
leads, unipolar, method of obtaining, 128*
left axis deviation in dropped hearts, 490
malaria and, 761*
manifestations, and cardiac effect of drugs in vitamin B₁ deficiency in rats, 206
meaning of, 636*
new methods of investigation, 634*
patterns of, in acute pericarditis, 760*
precordial, in myocardial infarction, 700
Q-T interval of, 634*
regression or T deflection, electrogram of cardiac muscle, analysis which explains, 165
resemblance in appearance of automatic and extrasystolic beats, 252*
significance, clinical, of prolonged Q-T interval, 636*
standardization of precordial leads, 107, 235
unusual P-wave in Lead IV, 498
ventricular complex of, abnormalities of, relation of myocardial disease to, 28
deflections in myocardial infarction: electrocardiographic study using esophageal and precordial leads, 414
